Mr. Michael Gearheard, Chief
Waste Management Branch
U.S. Environmental Protection Agency
Region 10
1200 Sixth Avenue
Seattle, WA 98101

SUBJECT: Closure Plan for CPP-48, Excess Chemical Dump Tank (French Drain
South of CPP-633) - ERD-229-91

Dear Mr. Gearheard:

This correspondence forwards the Closure Plan for CPP-48, Excess Chemical Dump Tank (French Drain South of CPP-633), to your office for review and approval. This plan evaluates the results of waste characterization activities completed at the site, identifies the absence of RCRA hazardous constituents in and around the unit at concentrations threatening to human health and the environment, and recommends that the unit be clean-closed without any further action required.

If you have any questions, please contact W. N. Sato at (208) 526-0193 or L. A. Green at (208) 526-0417.

Sincerely,

A handwritten signature in black ink, appearing to read "T. F. Burns, Jr.", is positioned above the typed name.

T. F. Burns, Jr.
Deputy Assistant Manager
Environmental Restoration and
Waste Management

Enclosure

Mr. Michael Gearheard
